TECHNICAL BULLETIN

Cambridge 30 / Biltmore 30 Fiberglass Shingle Acceptance

ARCA Warranty Ltd. is pleased to announce that on October 29, 2003 the Board approved the Technical Committee's recommendation to include IKO Industries Ltd.'s Cambridge 30 and CRC Biltmore 30 fiberglass asphalt shingles as accepted steep-slope materials for issuance of the five (5) year Steep-Slope Certificate of Assurance.

Please add Cambridge 30 and Biltmore 30 fiberglass asphalt shingles to Division 5, Schedule "C", Accepted Steep-Slope Roofing Materials in your GRP Manual.

Asphalt Shingle Valleys

For asphalt shingle applications, only open, woven or closed cut type valleys are permitted for issuance of the ARCA Warranty Ltd. Steep-Slope Certificate of Assurance.

Open valleys must be employed when using laminated and interlocking shingles.

For all shingles applications, the "California" type valley is not permitted for C of A issuance.

Please contact ARCA administration with any steep-slope material or shingle application requirements.
