Technical Bulletin

Accepted Roofing Materials

ARCA Warranty Ltd. is pleased to announce that on February 28, 2006 the Board approved Technical committee recommendations for the acceptance of the following roofing materials for inclusion under the five (5) year Certificate of Assurance (C of A) program.

1) Carlisle Sure-Weld Mechanically Attached T.P.O.

The Carlisle Sure-Weld reinforced single ply thermoplastic polyolefin (T.P.O.) membrane manufactured in .045, .060, .072 and .080 inch thicknesses is accepted in a single ply hot air welded seam mechanically attached system.

For specific mechanically attached application requirements contact Carlisle Syn Tec Canada or ARCA administration.

2) GenFlex RM Mechanically Attached P.V.C.

The GenFlex RM reinforced single ply P.V.C. membrane manufactured in 48, 60, 72, and 80 mil thicknesses is approved in a single ply hot air welded seam mechanically attached system.

For specific mechanically attached application requirements contact GenFlex Roofing Systems or ARCA administration.

3) Rmax Inc. Polyisocyanurate Roof Insulation

Rmax Multi-Max FA-3 polyisocyanurate roof insulation has been approved as an accepted insulation for Certificate of Assurance projects.

Please contact Rmax Inc. for availability and long term thermal resistance values.
